

Rizal Elementary School

Rizal Catigbian Bohol, Philippines

About Rizal Elementary School

Rizal Elementary School is a public educational institution located in Barangay Rizal, Catigbian, Bohol. The school serves children from the local community and nearby areas by providing accessible primary and elementary education. Guided by the Department of Education, the institution continues to support the learning and development of its students while promoting quality education within the rural community.

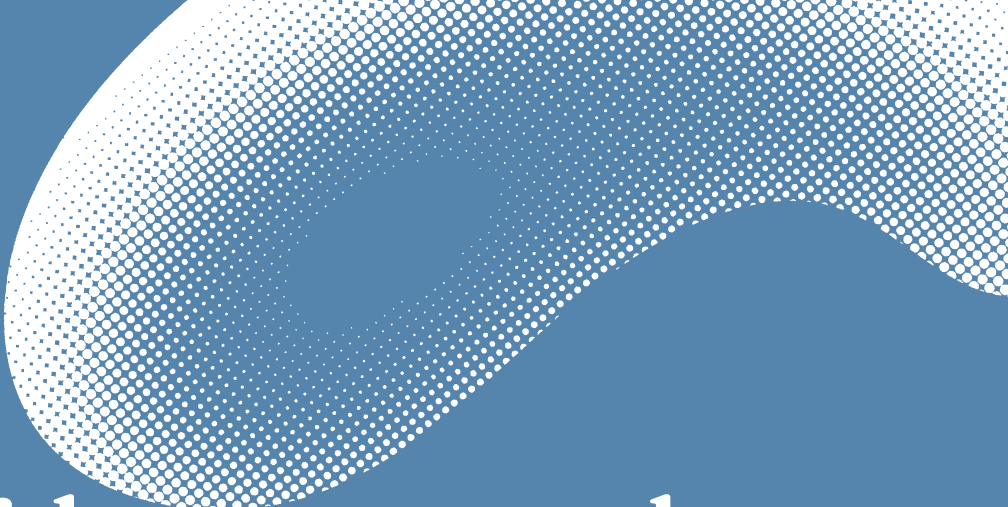

Rizal Elementary School

Rizal Elementary School is a public educational institution located in Barangay Rizal, Catigbian, Bohol, providing primary and elementary education to children from the local community and nearby barangays.

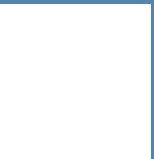

During the activity, it was observed that some classrooms and school facilities are already in poor condition and are no longer safe for regular use. The school also lacks sufficient facilities and resources needed by both students and teachers, which affects the overall learning environment.

In response to the needs of the school, the foundation of Dr. Luppa, headed by Ms. Maria Lourdes Amann, extended assistance for the renovation and improvement of the school facilities. The support aims to help provide a safer, more conducive, and comfortable learning environment for both students and teachers. The initiative reflects the foundation's commitment to supporting education and community development through meaningful outreach and assistance programs.

The following slides present the renovation and improvement of Rizal Elementary School facilities through the assistance extended by the foundation of Dr. Luppia and headed by Ms. Maria Lourdes Amann.

Then

Purchasing of Materials

The photos show the renovation of the school supervised by SOR Lani Saligumba, an ACI Sister, highlighting the ongoing improvements and monitoring of the school facilities.

Now

The water tank serves as a water storage system for the school, ensuring a steady supply of water for daily use and other school needs.

Classroom Renovation

The classroom renovation focuses on improving the learning environment by repairing and upgrading classroom structures and facilities to ensure a safer and more conducive space for students and teachers.

The renovation includes the improvement of the school stage, which is already being used for school activities, to ensure a safer and more functional space for students and teachers

The school surroundings were improved and cleaned to create a safer, more organized, and more conducive environment for students and teachers

A simple mini gift-giving activity was held for the students of Rizal Elementary School to share happiness and encouragement. The activity aimed to support and motivate the learners through small gifts and thoughtful gestures.

A photo opportunity was held with the faculty and students of Rizal Elementary School together with Ms. Maria Lourdes Amann and the ACI Sisters, capturing moments of unity and participation during the activity.
